## **[ORDER FORM - CLICK HERE](#)**

We use Fuji chemistry and Fuji Professional Paper, Matte finish only. Fuji Paper is rated the longest lived paper by the industry (100+ years without a color change). Professional paper has a lower contrast than regular mini lab paper. Lower contrast provides better skin tones and more detail in the highlights and shadows. Attached is an order form sheet whenever you are ready to place an order. Thank you so much for your business and we hope to see you on the beach smiling at our cameras again soon!! Questions? Call our direct lab line @252-305-8800. Christmas Cards are also available.
